Instructor Survey of Motivational Attitudes toward Teaching Statistics

Title of research study: Developing Validated Instruments to Measure Student/Faculty Attitudes in Undergraduate Statistics and Data Science Education

IRB #: IRB-FY2025-79

Investigator: Michael A. Posner, Professor of Statistics and Data Science, michael.posner@villanova.edu, 610-519-3016

Key Information: This study involves research and is voluntary. You can stop at any time without penalty.

Purpose of the Research: We are gathering data on attitudes toward statistics. We are interested in (1) what these attitudes are, and (2) how attitudes relate to student and instructor characteristics and classroom environment. The following survey asks demographic information and about your attitudes towards teaching statistics. The long term goal of this research is to improve instruction in statistics courses.

Procedures: The entire survey should take about 15 minutes to complete. We request that you complete every item, but you are not required to do so. Your survey responses may be linked with other data collected as a part of this study.

You have been asked to give us your name and email address. The purpose is to verify your participation in this study, and to link your survey responses with any other responses you complete as part of this project.

A dataset that excludes all personal identifying information will be made publicly available for educational researchers. The study investigator may grant access to approved researchers to use identifiable data for validated studies after a Data Use Agreement has been signed.

Risks / Discomforts: This study is educational research and does not have any known associated risks.

Benefits to Prospective Subjects and/or to Others: By filling out this survey, you may be better able to identify your feelings toward teaching statistics. Your responses may also aid statistics education researchers in improving instruction in statistics courses.
